venue.

During National Myeloma Awareness Month, the Leukaemia Foundation and Myeloma Australia will highlight myeloma awareness and education in Australia. Together we'll be hosting seminars bringing you specialists in the field of myeloma to discuss the latest 'what, how, when and why' of myeloma. We'll be focussing on topics such as current myeloma management, the impact of research for expanding treatment options and maximising wellness.

## GUEST SPEAKERS

Overview of Myeloma - Dr Brad Augustson, Haematologist  
Myeloma Treatments Q & A - Dr Matt Wright, Haematologist  
Myeloma & Exercise - Debbie Cooper, Exercise Physiologist  
Clinical Trials in Myeloma - Sir Charles Gairdner Trials Unit  
Living well from the patient's experience - Dr Caesia Burger  
Practical information for carers - Leukaemia Foundation & Myeloma Australia staff
