

Monash Myeloma Information Day

Myeloma Australia would like to invite you to a myeloma information day at Monash Medical Centre, for people living with myeloma, their family and friends. This is a great opportunity to learn more about myeloma from local experts, while connecting with other members of the myeloma community. A light lunch provided.

Speakers:

Dr Pasquale Fedele – What is myeloma and why did I get it?

Haematologist at Monash Health and St. John of God Berwick, Dr Fedele has a PhD on the role of transcription factors in myeloma

Dr Michael Low – Bench to bedside, why do new therapies take so long?

Haematologist at Monash Health and St. John of God Hospital Berwick, Dr Low has a PhD on survival pathways in myeloma

Dr George Grigoriadis – What's new in transplant eligible myeloma?

Haematologist at Monash Health and Alfred Health and Senior lecturer in the School of Clinical Sciences at Monash Health

Cathy Rose – Living with myeloma, a carer's experience
